Balfour Global LLP,

Dear friends,

We would like to express our satisfaction with Brink's participation in the 3D SCREENS project you designed.

To participate in this project was something innovative for Brink's. The 3D effects and the beautiful presentation in the shopping mall contributed to reinforce the cutting-edge technology concept and modernity of the Brink's brand, helping us to build an increasingly solid brand with innovating characteristics.

Please convey our congratulations to all members of the Balfour team for their excellent work.

Sincerely,

Brink's - Segurança e Transporte de Valores Ltda. - Brasil
